Change Description:

The TSMC (Taiwan) wafer fabrication facility has been added for the above noted devices to ensure an uninterrupted flow of product to meet customer production demands. The facility will manufacture the parts to the same specification as our Rousset France parts. TSMC parts will be compatible in form, fit, and function to the Rousset material and will also be a drop-in replacement to products that are currently being produced in the Rousset facility, which meet all datasheet specifications.

Ordering codes for the above aforementioned will remain unchanged.

Identification Method to Distinguish Change:

The manufacturing location can be traced by the lot number (XXXXXXXX) in the bottom left corner of the top side marking.

Proposed First Ship Date*: November 4, 2010 or as soon as customer approves after October 4th.

**The Proposed First Ship Date is the forecasted date that a customer may expect to receive changed product. This is determined by the estimated date of inventory depletion on the PCN issue date. This may be affected by fluctuations in supply and demand. Consequently, although customers should be prepared to receive changed product on this date, Atmel will continue to ship pre-changed product until a time in which inventory has been depleted. This may result in pre-changed product being shipped to customers after this forecasted date.*
