Modification of AVR Automotive Part Number Codification

In February 2007, further to Product Change Notification NC070702 and NC071503, we modified our part number codification for the order entry in SAP to a provisional codification, with space instead of the usual dash.

From May 19th (W21) we will return to the standard part number codification. Part numbers with space will be suppressed and replaced by the initial part numbers with dash. Of course customer will still be delivered with the improved power on reset revision.

Impacted part numbers are:

The switch of the existing backlog will be done by the Nantes planning team during W21.

In order to prevent issues at customers and distributors and to secure deliveries during W21, please enter the last orders in SAP with the part number with space by Monday 19th May before 8:00 a.m. Central Europe Time (CET).

Order entry will be closed from Monday 19th May 2008 at 8:00 a.m. CET to Thursday 22nd May at 8:00 a.m. CET.

There will be no deliveries from Tuesday 20th May to Friday 23rd May included.

Order entry will be reopened on Thursday 22nd of May, at 8:00 a.m. CET. From this date orders will have to be entered with the standard part numbers.
