Revision L of SST39VF010, SST39VF020 and SST39VF040 are compatible in form, fit and function to all existing revisions of each respective device and meet the same datasheet specifications. The revision of each device can be visually identified by looking at the last letter of the third row on the top side of the package. A revision L product shows the letter “L” following a 7-digit number and a dash; for example, xxxxxxx-L, where x represents a number from 0 to 9.

Revision L samples of SST39VF010, SST39VF020 and SST39VF040 are available now and SST will begin volume shipments for both products by May 2010. In addition, the older revisions of SST39VF010, SST39VF020 and SST39VF040 will be shipped to customers until inventory is exhausted or until August 31,
